This week I was able to finish the mount for the camera mast and should be finished printing by the end of the week. The next step will to epoxy the fiberglass tube to the mounts and attach it to the chasis. I have also helped with the base rotation for the robotic arm. I was tasked with making a case for the worm gear that will turn the arm on a lazy susan. I am awaiting measurements for Matthew on how big his rebuilt gear box is going to be.
