Your Name	Brady Anderson
Week Number	15
Individual Status Report	
My tasks are currently:	On Track

Please put any comments below on your status with your tasks.

I worked on cleaning up the autonomous code and adding comments to explain how it works. I also started writing a GitHub wiki page explaining how the autonomous works in more detail that can be expressed in code comments. I intend to add these documents to the team GitHub in the next few days, they are not particularly time-critical.
